

# Non-invasive Reduction of Wrinkles and Overall Improvement in Facial Appearance: Preliminary Results

Joel Cohen, M.D.<sup>1</sup>, Chris W. Robb M.D., Ph.D.<sup>2</sup>

1. AboutSkin Dermatology and AboutSkin Research, Greenwood Village, CO, USA

2. Skin & Allergy Center, Spring Hill, TN, USA

Presented at the American Society for Laser Medicine and Surgery (ASLMS), Phoenix, Arizona, April 13-16 2023

**94%**

Patients reported improved skin appearance

**77%**

Patients reported facial lifting and tightening effect

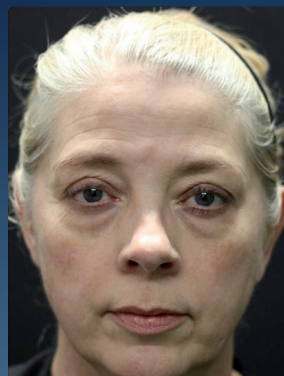

## Methodology

- 17 patients received four full-face EMFACE treatments
- Evaluation of digital photographs included:
  - Wrinkle severity using the FWES scale
  - Evaluation of aesthetic improvement using the Global Aesthetic Improvement Scale
- Patient satisfaction questionnaire

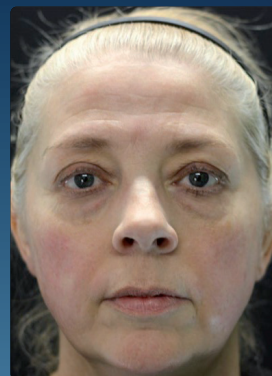

## Preliminary Results

- On average, there was a 2.0-point improvement in the Fitzpatrick Winkle and Elastosis Scale
- According to the GAIS scale, reviewers observed aesthetic improvement in all patients
